**California's Best Legal
Services Providers**

California's Best Legal Services Provides

Welcome to the fifth annual issue of The Recorder's Best. This year also marks a much-expanded listing more specifically related to those key legal services attorneys and firms rely on in their day-to-day practices. This was a big hit with our audience - the response to the survey this summer grew tremendously from previous years.

Inside, you will find the top professional legal services and products as rated by The Recorder's readers and area legal practitioners. It's a great list of key resource providers and we hope you will support the establishments and organizations that are showcased in this special publication.

Enjoy The Best.

Sincerely,

Brian Hunt, Publisher
